

# Winter Activities

## Camp in Group Use Area

Firewood, vault toilets and group use shelter are available.

## Cross-country Skiing

There are 12 km of cross-country ski trails. The trails are not patrolled and skiers should be prepared for emergencies. We suggest you carry an emergency kit containing an extra ski tip, cord, wire, pliers, a pocket knife, cell phone, screw driver and screws.

## Ice Fishing

Winagami Lake is a very popular place to fish for northern pike, walleye and whitefish.

## Snowshoeing

Snowshoers are welcome to explore the park. There are no formal trails so you are welcome to make your own way in open or forested areas. Please do not snowshoe on cross-country ski trails.

# Visitor Guidelines

Frostbite and hypothermia are real dangers in winter. Be sure you are prepared before you head outside. Dress in layers and wear a hat. Carry extra socks and a sweater. Please respect wildlife and other visitors by following these guidelines:

- keep your dog on a leash and off the ski track
- obey all signs
- use the firepits and stoves provided at shelters and picnic areas
- pack out all your garbage and leave no trace of your passing
- alcohol is not permitted.

When cross-country skiing:

- ski on the right, pass on the left
- step off the trail to the right when stopping
- downhill traffic has the right of way, and
- use caution when approaching steep slopes and bridges.

For information on winter conditions, especially after a heavy snow or severe weather, please contact the Alberta Parks office.

WINTER TRAILS

Government  
of Alberta

# Cross-Country Ski Trails

## 'A' Trail

- Easy—1 km

This short loop takes you through part of the campground, along the beach and back to the group use area. There is one short, steep hill which is not very difficult.

## 'B' Trail

- Easy—2.5 km

This double-set loop goes south of the group use area and the boat launch. It passes through poplar and willow stands, goes along the lake shore, and returns along the park entrance road to the starting point.

## 'C' Trail

- Intermediate—9 km

This trail is an extension of the southern end of loop 'B'. It crosses the park entrance road and follows the southern park boundary, then turns north and winds its way along the South Heart River. This portion of the trail takes you through mature mixed forest, and many small, gently rolling hills.
