

Kananaskis in the Classroom

“BROADWAY IN THE BUSHES”... COMING TO A SCHOOL NEAR YOU!

Kananaskis Country interpretive education programs sow the seeds of environmental stewardship with theatrical presentations and classroom sessions. Each day begins with a 50-minute high-energy, educational, and fun musical theatre presentation for the entire school to enjoy. Presentations feature original music, exciting characters, curriculum-driven scripts, and audience participation!

All programs include four additional 45-minute small group sessions. Each session is limited to one class or 25 students to allow a deeper discovery of the topic through natural history props, activities and hands-on exploration!
