The applicant/permittee shall secure and maintain the following insurance coverage for the length of the permit:

- Certificates of insurance shall provide that such insurance shall not be terminated or expire prior to the completion of the activity.
- Where required by provincial legislation, coverage under the Worker's Compensation Act and General Regulation.

4. CERTIFICATION REQUIREMENTS (Attachment #3)

A Guiding or Instructing an Outdoor Activity Permit issued by Alberta Environment and Parks requires that guides and instructors to be certified in certain skill areas before guiding/instructing clients in certain higher risk activities. As a requirement to ensure that guides/instructors are certified to guide/instruct these activities, proof of certifications will be requested by the Department before a permit will be issued.

Some companies have many guides while other companies may have only one. For companies with more than one guide, only proof of the lead guide certifications need be provided. However, all guides within that company must have the same certification levels if they are to conduct those activities which the Department requires certifications for. Certifications of all guides must be current and up to date when guiding and/or instructing clients.

Note

Prior to a permit being issued, a valid copy of the required certificate or a letter from a certifying organization indicating the certification of the individual, will be required for certain skills.

5. KANANASKIS IMPROVEMENT DISTRICT BUSINESS LICENCE

In Kananaskis Country, businesses are required to obtain a business licence from the Kananaskis Improvement District. For further information on the business licence requirements and applications, contact the Kananaskis Improvement District, Kananaskis Office at (403) 591-7774.

A copy of the permit with both signatures will be returned to the operator.

Alberta Environment and Parks requires permit holders to submit a Post-Season Report when their permit expires. A Post-Season Report (*for previous operating year*) must be submitted to the Division before a new permit is requested. Individual Activities and Locations must be identified for each day (one line per day) that you operate.
