

JARVIS BAY CONCEPT

AUGUST 2016

- Phase 1 – Red
- Phase 1 or 2 - Purple
- Phase 2 – Yellow
- Phase 3 – Green
- Phase 4 - Blue

Phase 1 is to complete upgrades to the water and sewage management infrastructure, electrical and the main entrance to the park. Additionally any expansion of the existing sites in the south loops. Phase 2 is to complete the overhaul of the northwest loop and the group sites. This includes adding additional amenities as required for these areas. During phase 1 or 2 the maintenance yard will need to be upgraded. This includes building a new maintenance shop and creating more storage. Phase 3 includes the addition of the 3 new camping loops within the park. Phase 4 will be the completion of yurts to include a comfort camping experience in the park. Additionally phase 4 includes a dog park for day use visitors. Phase 5, which is not labeled on the map, will deal with any minor changes to be completed within the entire park along with trail upgrades and removal once all the camp loops are implemented. The plan is to complete all these changes to the park within the next 5-7 years.
